

Ore Car Decal Instructions

Thank you for purchasing the ore car decal set. These instructions work for both the 1 cord ore car and the ½ cord ore car. Our goal is for every customer to be happy so if you have any questions or concerns, please contact me by using the contact form on my website www.singerlinks.com. You should also visit the website for lots of information on the Gilpin Tramway including historical, modeling, and how to hike the right of way.

Gold Mine Trains provides an excellent set of decals for the Gilpin ore car. I created a font specifically for the unique stenciled block lettering seen in the historic photos. You can read more about how I did that [here](#).

This post will describe where to install these decals on the Gilpin ore car.

Historical View

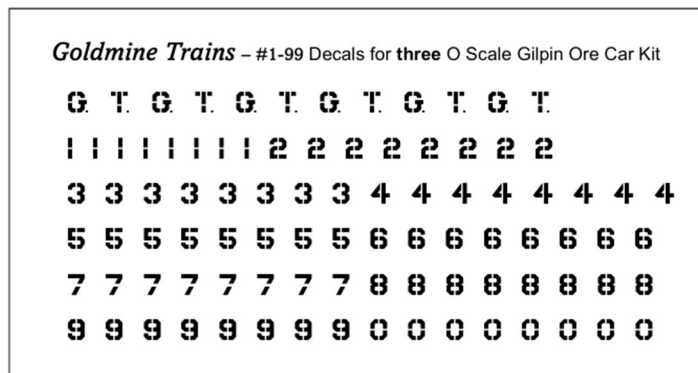

This is a close-up of a historical photo showing where the numbers are located on the side of the ore car.

The original "1/2 Cord" ore cars were numbered from 5-24.

The "1 Cord" ore cars were numbered from 25 to 155.

The Decal Set

Gilpin Tramway Ore Car Decals – 1 Cord and ½ Cord

The decal set above provides enough numbers to handle 3 ore cars. You can create numbers from 01 - 99 using this set. This is the O scale decal set; the other scales have similar decal sheets.

<i>Goldmine Trains</i> – #100-150 Decals for three O Scale Gilpin Ore Car Kit																			
G	T	G	T	G	T	G	T	G	T	G	T	G	T	G	T	G	T	G	T
10	10	10	10	10	10	10	10	10	11	11	11	11	11	11	11	11	11	11	11
12	12	12	12	12	12	12	12	12	13	13	13	13	13	13	13	13	13	13	13
14	14	14	14	14	14	14	14	14	15	15	15	15	15	15	15	15	15	15	15
0	1	2	3	4	5	6	7	8	9	0	1	2	3	4	5	6	7	8	9
0	1	2	3	4	5	6	7	8	9	0	1	2	3	4	5	6	7	8	9
0	1	2	3	4	5	6	7	8	9	0	1	2	3	4	5	6	7	8	9

The set above has enough numbers to handle 3 ore cars. You can create numbers from 100 - 155. This is the O scale decal set; the other scales have similar decal sheets.

The decals are your typical water-based slide-off decals and the method used to install them is basically the same as all decals so I'm not going to repeat that here. They use white lettering on a clear background, so you don't have to worry about matching your paint job to the background of the decal.

Decal Installation

The decals are supplied on one piece of decal paper, and you must cut out the "G", the numbers, and the "T" separately to install them.

Side View

Here we see the decals installed on the side of the ore car. The letters were installed separately from the numbers.

End View

Here we see the end view of the ore car. The car number only is installed on the right-hand side. (apologies for the bad focus on this photo).
